# ADRIAAN M. DIMATE

Software Developer, Project Manager,
Data Management, & Production Support

## Professional Experience

**Aug 2023 – Present**

### Data Encoder / Bookkeeper (Working Student)

TDA Car Rental | 2746 Rizal Avenue, Olongapo City

- Prepares client billings.
- Records receipts, billing statements, and customer rates for systematic financial monitoring and analysis.
- Processes percentage and income tax returns via the Bureau of Internal Revenue eBIRForms system.
- Performs simple book and record keeping.
- Responds to customer inquiries via email.

**Jan 2024 – Present**

### Volunteer Production Staff & QA Assistant

I Care Center | 2057 National Highway, Olongapo City

- Prepared and quality-checked ProPresenter lyrics and slides for weekly services, ensuring accuracy and readiness before live use.
- Managed live service presentation by operating ProPresenter and synchronizing lyrics, visuals, and media in real time.
- Prepared and monitored online services, including video stream overlays, transitions, and smooth delivery for remote audiences.
- Collaborated with worship and co-media team members to troubleshoot technical issues under time-sensitive conditions.
- Maintained and upgraded OBS connections with ProPresenter via OBS-NDI and NDI Local Servers

**Jun 2025 – Present**

### Volunteer Software Developer

I Care Center | 2057 National Highway, Olongapo City

- Improved and QA'ed an OBS Remote fork, adding fixes and enhancements for live-stream workflows.
- Designed and developed the church website using SDLC, from Figma mockups to deployment.
- Built a full-stack web app with React + Supabase, focusing on scalability.
- Used Trello for agile project management with ministry stakeholders.
- Coordinated with media and worship teams to align web features with service needs.

**Jul 2025 – Aug 2025**

### Data Encoder (Internship)

ACEMC - Baypointe Hospital | Lot 1A/1B Dewey Ave, SBFZ

- Verified and cross-checked patient records to identify redundancies and correct data errors.
- Accurately encoded charge slip amounts and performed required computations.
- Processed and computed transaction values while ensuring proper data encoding.
- Created a simple Excel VBA macro that slightly improved charge slip encoding efficiency, making daily processing a bit easier.
